You should inform Lon Nol that USAF will be under-
some
taking/unarmed photographic reconnaissance missions
in Eastern Cambodia, somewhat beyond present points of
contact with enemy. Such missions will stay well clear
of Phnom Penh and in order to avoid any possibility of
injury to civilians will not be accompanied by armed
escort -- that is, there will be no attempt at suppressive
fire if missions are fired upon. We will make available
to Lon Nol any information resulting from these missions
that might be helpful to him.
